Bank of Baroda hit by cyberattack

1 terabyte of customer data 'leaked on dark web'

SUBRATA PANDA
Mumbai, 27 July

State-owned Bank of Baroda (BoB) has been hit by a cyber-attack, with nearly 1 terabyte (1TB) of data, including consumer and corporate banking records of its customers, allegedly leaked on the dark web for free.

The alleged breach includes data related to customers' savings and current accounts, loan accounts, net banking users, non-resident Indians (NRIs) and corporate banking services, as well as branch and ATM-related records.

In a statement, the Mumbai-based lender said a comprehensive forensic investigation has been initiated and it is working closely with relevant authorities, in accordance with applicable regulatory requirements.

"The incident involved compromise of an employee's email account, resulting in unauthorised access to certain data. The matter was promptly identified, and immediate containment measures were implemented. The bank's core banking systems were not accessed and continue to remain secure," the bank said in a statement on Monday.

"The bank has robust information security protocols in place," it said, adding that it remains committed to maintaining the highest standards of information security and to safeguarding the trust of its customers and stakeholders.

No hacker has claimed responsibility for the data breach yet.

However, according to some reports, hacking group TripleX has claimed responsibility for publishing the data online. A listing on dark web monitoring platform Ransom-ware.live, dated July 24, alleges that the dataset

How it unfolded

- Leaked data related to customers' savings and current accounts, loan accounts, net banking users, NRI and corporate banking services
- According to some reports,

hacking group TripleX has claimed responsibility for publishing the data online

- Bank says a forensic investigation has been initiated

Recent cases

- In February, around 5,000 customers of Yes Bank's multi-currency prepaid forex card were hit by a spate of fraudulent transactions
- In 2024, ICICI Bank admitted to a data

glitch that affected 17,000 newly issued credit cards

- In 2016, card data of 3.2 mn customers was stolen between May 25 and July 10 from a network of Yes Bank ATMs managed by Hitachi Payment Services

includes between 100,000 and 300,000 customer application forms containing photographs and identity documents submitted during account opening. In the past, several banks have been hit by data breaches.

Earlier this year, around 5,000 customers of Yes Bank's multi-currency prepaid forex card, issued in partnership with BookMyForex, were hit by a spate of fraudulent transactions in the early hours of February 24. Transactions worth \$280,000 were approved during the incident.

The bank, however, managed to decline 688 unauthorised transaction attempts, safeguarding around \$100,000.

In 2024, ICICI Bank, India's second-largest private sector lender, admitted to a data glitch that affected nearly

17,000 newly-issued credit cards. The cards were mistakenly linked to the wrong users on the bank's digital channels.

In October 2016, card data of 3.2 million customers was stolen between May 25 and July 10 from a network of Yes Bank ATMs managed by Hitachi Payment Services.

Malware targeted 90 Yes Bank ATMs and point-of-sale (PoS) terminals, resulting in the theft of customer data from banks, including State Bank of India (SBI), ICICI Bank, HDFC Bank and Yes Bank.

Of the affected cards, 2.6 million were reported to be on the Visa and Mastercard platforms and 600,000 on the RuPay platform.

The worst-hit card-issuing banks included SBI, HDFC Bank, ICICI Bank, Yes Bank and Axis Bank.

'DEFAMATORY' DEEPFAKES

Bombay HC allows Gadkari to file suit against Meta, X

PRESS TRUST OF INDIA
Mumbai, 27 July

The Bombay High Court on Monday permitted Union Minister Nitin Gadkari to file a civil suit against Meta Platforms, X Corp, Google LLC and other unknown persons over "defamatory" deepfakes and AI-generated posts uploaded against him.

The Union Minister for Road Transport and Highways and senior BJP leader had filed a leave petition under Clause XII of Letters Patent, a procedural requirement wherein permission of the court is sought before filing of a suit, when part of the cause of action arises outside the territorial jurisdiction of the high court. Such leave (permission) is necessary to enable the court to hear and decide a suit despite jurisdictional limitations.

Gadkari's leave petition came up for hearing on Monday before a single bench

Union Minister Nitin Gadkari said some posts had defamatory content on the ethanol blending issue

of Justice Abhay Ahuja.

His lawyer Sandeep Ladda submitted that online platforms have made alleged defamatory and deepfake content publicly available, including to users in Maharashtra. Since this content is accessible here, Ladda argued that a substantial part of the cause of action arises in this state too.

Justice Ahuja accepted the arguments and permitted the Union minister to file a civil suit against the online portals.

Gadkari, in his proposed suit, claimed there are several fake, AI-generated and defamatory content available online with regard to the ethanol-blended fuel issue.

According to the proposed suit, unknown persons have uploaded and circulated posts and deepfake content falsely portraying him as being personally responsible for the programme and that he and his family have financially benefitted from it.

The allegations made in the posts are false, malicious and grossly defamatory without an iota of doubt, and is designed to create a misleading public perception against Gadkari, the suit said.

Through the suit, Gadkari intends to seek permanent injunctions against such fake and false content.

Govt says no delay in AI171 plane crash probe

The government on Monday said there is no delay in the probe into the fatal crash of the Air India plane AI171 last year and that the timeline for a major accident investigation cannot be predicted as it depends on several factors.

A London Gatwick-bound Air India's Boeing 787-8 aircraft crashed soon after take off from Ahmedabad on June 12 last year killing 260 people.

"The timeline for a major accident investigation cannot be predicted, as it depends on several factors and is an evolving process involving multiple variables. The investigation is under progress. All probable causes and contributing factors leading to the accident are being investigated," Minister of State for Civil Aviation Murlidhar Mohol informed the Rajya Sabha.

Now, AI-powered system can make solar power plants smarter, efficient

HEMANT KUMAR ROUT
Bhubaneswar, 27 July

As India races towards achieving 500 gigawatt (Gw) of non-fossil fuel power capacity by 2030, researchers at the National Institute of Technology (NIT), Rourkela, have developed an artificial intelligence (AI)-powered autonomous system that can significantly improve the efficiency and economics of solar power plants.

The patented technology addresses the challenge of maintaining clean solar plants to ensure peak power generation without regular human intervention. It identifies only the portions of solar panels that

THE TECHNOLOGY, DEVELOPED AT NIT ROURKELA, HELPS TO MAINTAIN SOLAR PLANTS WITHOUT REGULAR HUMAN INTERVENTION

require cleaning, monitors their health in real time and performs selective cleaning, reducing water consumption, lowering maintenance costs, and maximising electricity generation.

Conventional maintenance practices generally rely on periodic cleaning schedules irrespective of the actual condition of the panels. Besides being labour-intensive, these

methods consume enormous quantities of water and increase operational costs while often resulting in unnecessary cleaning of already efficient panels.

The researchers have achieved a breakthrough in addressing this challenge. "Our system replaces this conventional approach with an intelligent decision-making framework. Instead of cleaning every panel at fixed intervals, the AI analyses the operational condition, detects faults or contamination and determines whether cleaning is actually required," said Arun Kumar, assistant professor at the Department of Computer Science and Engineering.

When industry giants speak, everyone listens.

होंडा ज़ीआर-वी हाइब्रिड इंडिया में लॉन्च...

एसयूवी से पर्दा उठाने के दो महीने से अधिक समय बाद होंडा कार्स इंडिया ने जीआर-वी हाइब्रिड को 47.99 लाख की एंटी एक्स-शोरूम प्राइस पर लॉन्च कर दिया है। यह पहली बार है जब होंडा ने भारत में कोई हाइब्रिड एसयूवी उतारी है। जापान से सीबीयू इंपोर्ट होने वाली जीआर-वी भारत में होंडा का टॉप एंड मॉडल है। इसकी लंबाई 4,657 मिमी, चौड़ाई 1,840 मिमी, ऊंचाई 1,621 मिमी और व्हीलबेस 2,655 मिमी है। जीआर-वी में बड़ी ब्लॉक-ब्लैक ग्लिल के साथ दोनो ओर पतले एलईडी हेडलैम्प दिए गए हैं। इसके फ्रंट वेंपर में फंक्शनल एयर वेंट्स हैं, जबकि पीछे की ओर यू-शेपर एलईडी टेल-लेम्प, रूफ स्पॉइलर, रियर वाइपर और वेंपर में लगे डुअल एक्जॉस्ट आउटलेट दिए गए हैं। भारत में मिलने वाले मॉडल में 18-इंच अलॉय व्हील लगाए गए हैं। केबिन के अंदर ऑल-ब्लैक इंटीरियर, कॉन्ट्रोल स्टिचिंग वाली लेदर अपसेलेस्ट्री, सॉफ्ट-टच मैटीरियल और मेटैलिक ट्रिम इंस्टर्स दिए गए हैं। वहीं प्लॉटिंग सेंटर कंसोल में होंडा का पुश-बटन गियर सेलेक्टर लगाया गया है। डैशबोर्ड पर 9-इंच टचस्क्रीन इंफोटेनमेंट सिस्टम और 10-इंच डिजिटल इंस्ट्रूमेंट क्लस्टर मिलता है। साथ ही डुअल-जोन क्लाइमेट कंट्रोल, 12-स्पीकर बोस साउंड सिस्टम, ड्राइवर के लिए मेमोरी फंक्शन वाली पावर फ्रंट सीट्स, वायरलेस फोन चार्जिंग, फ्रंट पार्किंग सेंसर और कम गति पर पैडल यांत्रियों को सतर्क करने वाला एकोस्टिक व्हीलकल अलर्ट सिस्टम (एवीएएस) शामिल हैं। इसमें 8 एयरवेज, चारों पहियों पर डिस्क ब्रेक और होंडा का फुल अड्रेस पेकेज भी मिला गया है। इसमें अडैप्टिव क्रूज कंट्रोल, ऑटोनॉमस इमरजेंसी ब्रेकिंग, लेन कीप असिस्ट, लो-स्पीड फॉलो और ड्राइवर अटेंशन मॉनिटर जैसे सेफ्टी फीचर शामिल हैं। इसमें 2.0-लीटर ट्यूबो-हाइब्रिड ई-पंचवी पावरट्रेन दिया गया है, जिसमें नैचुरली एस्पिरेटेड पेट्रोल इंजन को इलेक्ट्रिक मोटर के साथ जोड़ा गया है। यह सिस्टम कुल 181 बीएचपी पावर और 315 एनएम का टॉर्क पैदा करता है। कंपनी का दावा है कि जीआर-वी हाइब्रिड का माइलेज 22.80 किमी है।

वैरायली

अमेरिकन ड्रीम? यूरोप को ड्राइवर्ट हो रहे इंडियन स्टूडेंट्स

नफा नुकसान रिसर्च

डोनाल्ड ट्रंप के आने के बाद से हिंदुस्तानियों ने अमेरिका से जैसे किनारा कर लिया है। एक तो बीजा को लेकर कड़ाई, दूसरा प्लेसमेंट की किल्लत तीसरा हिंदुस्तानियों पर अमेरिका में रेशियन अटैक (जातीय हमले) बढ़ना इसका बड़ा कारण है। बात सिर्फ अमेरिका की नहीं है बल्कि कनाडा और ऑस्ट्रेलिया को लेकर भी हिंदुस्तानियों में बेरुखी बढ़ रही है। ऐसे में यूरोप के देशों खासकर जर्मनी भारतीयों की पहली पसंद बनकर उभरा है। एक तो यूके के इतर यूरोप में एजुकेशन बहुत सस्ती है दूसरा भारत के साथ हुए एफटीए के चलते भी यहां जॉब्स के हालात बेहतर होने की उम्मीद जताई जा रही है। वैसे भी जर्मनी में एजुकेशन इंडस्ट्री से लिंकड है।

फॉरेन एजुकेशन कन्सल्टेंट्स के अनुसार इंडिया-ईयू ट्रेड डील में शामिल मोबिलिटी प्रावधानों के चलते भी इंडियन स्टूडेंट्स अमेरिकन ड्रीम को किनारे रख यूरोप का टिकट कटवा रहे हैं। ईयू वैसे भी बूढ़ी होती आबादी से पैदा हुई कर्मचारियों की कमी को पूरा करने के लिए युवा प्रतिभाओं को आकर्षित करना चाहता है। कन्सल्टेंट्स के अनुसार यूरोप की यूनिवर्सिटी दयुशन फीस अमेरिका की तुलना में आमतौर पर 50 से 80 परसेंट कम होती है। रहने का खर्च भी अपेक्षाकृत कम

होने से कुल शिक्षा लागत काफी घट जाती है। ईयू के एक के अनुसार भारतीय छात्रों के लिए यूरोपीय संघ एक प्रमुख केंद्र बन चुका है। भारतीय छात्र यूरोपीय विश्वविद्यालयों को समृद्ध बनाने के साथ-साथ इनोवेशन, ट्रेड और डिप्लोमेसी के क्षेत्र में भारत-ईयू संबंधों को भी मजबूत कर रहे हैं। उनके अनुसार, यह ट्रेड आगे भी बढ़ेगा, जिससे यूरोप के टेलेंट पूल का विस्तार होगा और भारत व यूरोप दोनों की ग्लोबल कंपिटिटिवनेस बढ़ेगी।

भारत सरकार के आंकड़ों के अनुसार, विदेश जाने वाले भारतीय छात्रों की संख्या 2023 में 9.08 लाख से अधिक थी, जो 2025 में घटकर लगभग 6.26 लाख रह गई। इसका प्रमुख कारण अमेरिका, ऑस्ट्रेलिया और ब्रिटेन जैसे लोकप्रिय देशों में बीजा नियमों का सख्त होना और शिक्षा महंगा होना माना जा रहा है। पिछले सप्ताह अमेरिका ने विदेशी छात्रों के बीजा को अवधि और सीमित करने का फैसला किया। इंडिया-ईयू

ट्रेड डील के जरिए स्टूडेंट्स और स्किलड प्रोफेशनल्स के लिए आसान बीजा, पढ़ाई के बाद रोजगार के स्पष्ट अवसर उपलब्ध कराना और भारतीय डिग्रियों की बेहतर मान्यता सुनिश्चित की गई है। फॉरेन एजुकेशन प्लेटफॉर्म लीप के अर्नव कुमार ने कहा, पहली बार कोई बड़ा आर्थिक समूह खुलकर कह रहा है कि हमें बड़े पैमाने पर इंडियन टेलेंट चाहिए। अब तक भारतीय छात्र बिना किसी व्यापक ढांचे के यूरोप जा रहे थे, लेकिन अब शिक्षा से लेकर रोजगार तक के लिए व्यवस्थित रास्ते तैयार किए जा रहे हैं। उन्होंने अगले तीन से पांच वर्ष में यूरोप में

से अधिक भारतीय छात्र यूरोपीय संघ के देशों में पढ़ाई कर रहे हैं। यह संख्या अमेरिका में पढ़ने वाले भारतीय छात्रों की लगभग आधी है, लेकिन यूरोप लगातार लोकप्रिय होता जा रहा है और अब अमेरिका, कनाडा तथा ऑस्ट्रेलिया के साथ प्रमुख शिक्षा गंतव्यों में शामिल हो चुका है।

स्टैटिस्टिक्स नीदरलैंड के अनुसार, नीदरलैंड में भारतीय छात्रों की संख्या 2018-19 में यह 2,630 थी जो 2025-26 में लगभग 3,700 हो गई। अब भारतीय वहां यूरोपीय संघ से बाहर के तीसरे सबसे बड़े छात्र समूह बन चुके हैं।

CUMULATIVE RAINFALL FROM JUNE 1 TO JULY 27 (2% departure from normal)

PROGRESS OF AREA COVERAGE UNDER KHARIF CROPS AS ON JULY 24 (in lakh hectares)

Hot & humid weather conditions likely to prevail over coastal Andhra & Yanam (Puducherry). Widespread rainfall likely across several places in MW, central, east and NE India, and southern peninsular India.

Source: IMD, Agriculture Ministry

Short Takes

Engg Goods Exports Up 21% in June to \$11.5b

NEW DELHI India's engineering goods exports rose 21% year-on-year in June to \$11.48 billion, led by demand from China, the United States, Germany and Oman, engineering exporters' body EPC India said on Monday, amid concerns over Red Sea and the Strait of Hormuz shipping disruptions. Shipments to China climbed 74% from a year earlier to \$361.47 million, India's overall exports to China rose nearly 37% in the fiscal year ended March to about \$20 billion.

PFC Unit Forms SPV for Karnataka Project

NEW DELHI Power Finance Corporation on Monday said its arm PFC Consulting has incorporated a special purpose vehicle company for transmission, which will develop a transmission system for 765kV in Koppal district, Karnataka. According to an exchange filing, PFC Consulting has been nominated as 'Bid Process Coordinator' for selection of a developer through tariff-based competitive bidding for the Independent Transmission Projects by the Power Ministry.

PUSHING EXPANSION IN SMALLER CITIES

Compliance Overhaul in Works for Wooing Pvt Investors to Healthcare

ON CARDS Scrapping dual licences, decriminalising minor violations, simplifying approvals

Vogima Seth

New Delhi: India is preparing its biggest regulatory overhaul for the healthcare sector, with the Centre weighing sweeping changes to slash the compliance burden on hospitals, scrap overlapping licences and decriminalise non-safety violations in a push to unlock private investment and accelerate healthcare expansion in tier-2 and tier-3 cities. The government will release a consultation paper on the proposed measures within the next two months, aiming to finalise the reforms by the end of the year, a senior official told ET. "A consultation paper will be brought out soon," the official said. Several rounds of discussions have been held with the stakeholders.

While the consultations for non-clinical regulations are in the final stage, consultations are continuing on clinical compliance requirements, the official said. The consultation paper is expected to propose uniform state guidelines, greater transparency in licensing and integration of ap-

Less Paper, More Care

Govt aims to attract private investment into tier-2 and tier-3 towns. Better healthcare, infra in smaller towns to reduce pressure on metros. It is 0.8-1.2 beds per 1,000 people in tier-2 & tier-3 towns.

provals with the National Single Window System to simplify business operations. "The idea is to have world-class infrastructure in smaller towns as well. It will help ease the burden on bigger towns and ensure people get the best healthcare facilities in close vicinity," the official said. Despite recent efforts to reduce the compliance burden, hospitals and healthcare facilities still have to meet more than 600 legal obligations and around 900 recurring annual compliance requirements across nearly 100 licences and per-

Key proposals

Single licence. Centralised practitioner registration. Govt. to release consultation paper within next 2 mths. Aim is to finalise reforms by year end.

mits issued by central, state and local authorities. "The healthcare sector faces overlapping compliance burdens with multiple approvals, lengthy timelines and arbitrary requirements that raise costs," said Rajiv Nath, forum coordinator at AIMA, the umbrella association of Indian medical device manufacturers. "For medical devices, challenges are sharper: regulation continues under the Drugs Act, despite recommendations in the National Health Policy 2017 and parliamentary reports No. 138 and 146 for separate legislation

and separate regulator for medical devices, as is also the case in many progressive global jurisdictions."

"Risk-proportionate regulation is essential to balance safety with ease of business," he said. The reforms come as private healthcare providers struggle to expand in tier-2 and tier-3 cities because of a shortage of specialised care, difficulties in retaining talent and limited access to capital. Hospitals in metropolitan cities have an estimated 2.7-3.0 beds per 1,000 people, compared with 0.8-1.2 beds per 1,000 people in tier-2 and tier-3 towns.

Health is a state subject, requiring hospitals, clinics and diagnostic centres to obtain approvals from state health departments in addition to central clearances. Regulatory requirements also vary across states, making it difficult for hospital chains to expand nationwide. Healthcare practitioners must register with their respective state medical councils before their details are verified and linked through national platforms like National Medical Register and Healthcare Professionals Registry.

Poor Rains Push Farmers Towards Low-Water Crops

Acreage under tur, soya, maize and millets declines; shift to hardy crops & vegetables

Shambhavi Anand

New Delhi: Erratic and below-normal rainfall is reshaping India's kharif sowing pattern. While acreage under staples such as tur, soybean, maize and millets has declined, farmers are increasingly shifting to hardy crops and vegetables that require less water and offer quicker returns. Government data as of July 24 shows acreage under sunflower has jumped 61.6% from a year earlier. The area sown under sesame, kullith (horse gram), jute and mesta has also risen 8.3%, 15.8%, 2% and 3.7%, respectively. Seed companies are seeing the change play out in demand. Farmers are increasingly opting for short-duration vegetables, prompting companies to import additional seeds of coriander, cabbage and temperate cauliflower.

"Vegetables are becoming an attractive option because they mature quickly and require less water than many field crops," said Tauseef Khan, co-founder of Unani, an agri start-up which supplies inputs such as seeds and pesticides to farmers. East-West Seed, which specialises in vegetable seeds, has also reported stronger demand for onion seeds following improved rainfall in parts of Maharashtra, Madhya Pradesh and Gujarat in the first week of July. The higher prices of the kitchen staple due to lower produce in the rabi season supported the farmers' sentiments.

The company said sweet corn has emerged as another preferred crop because, besides providing an income from the harvest, the remaining plant can be used as livestock fodder. It also expects demand for cucumber, cabbage, cauliflower and pears to rise in the coming weeks.

"We ran short of coriander seeds,

Under the Weather

Farmers changing crop choices due to erratic and below-normal rainfall. Moving away from water-intensive kharif crops such as tur, soybean, maize.

Compared with last year, acreage under sunflower has jumped 61.6%. Sesamum (+8.3%), kullith (+15.8%), jute (+2%) and mesta (+3.7%) have also expanded.

Vegetable seed demand surges. Kharif sowing still lags 4.7% lower YoY as of July 24.

eds, which we import from Italy, and had to source additional quantities as more farmers shifted to the crop," said Rohit Pagar, co-founder, East West Seed India, which specialises in vegetable seeds.

As June ended with around 40% deficient rainfall, sowing of major kharif crops - paddy (rice), pulses and oilseeds - remained sluggish, raising concerns about productivity. However, after a bout of rains in early July, planting picked up but still remained 4.7% down till July 24 this year compared to a corresponding period last year. India is likely to receive below-normal rainfall in July, the wettest month of the southwest monsoon, with precipitation expected to be less than 90% of the long-period average, said the India Meteorological Department.

GST Panel likely to Take Up Group ITC Transfers

Committee to also examine industry pitch for giving exemption to intra-group corporate guarantees from tax levies

Anuradha Shukla

New Delhi: A key panel under the goods and services tax (GST) council is likely to consider suggestions from the industry on transfer of unutilised input tax credit (ITC) within a corporate group and giving exemption to intra-group corporate guarantees from any tax levy. These recommendations, once approved by the GST council, will be placed before the GST Council, the apex decision-making body, for the indirect tax, at

its next meeting, said people familiar with the matter. The meeting is likely in the next few weeks.

Industry has submitted that the current GST framework often leaves one group company with surplus tax credits, while another is forced to pay tax in cash, resulting in inefficient credit utilisation. It has thus sought a mechanism for transfer of excess ITC between companies with common ownership or a common PAN, subject to safeguards.

The move, if approved by the council, can boost corporate cash

WHAT EXPERTS SAY

Changes will improve credit utilisation, cut litigation & compliance costs, boost ease of biz

flows for investing in business, without materially affecting government revenues.

Experts said the proposed changes would improve credit utilisation, reduce litigation and compli-

ance costs, and further the government's ease-of-doing-business agenda, while making the GST framework more efficient without "intragroup GST payments leading to inefficient working capital management, and in today's highly competitive environment, it is essential to improve all efficiencies including working capital utilisation efficiency across a group," said MS Mani, partner, direct tax, Deloitte India.

He added that this can be done either by using the Canadian model of not charging GST on supplies between closely related groups. Another alternative is by allowing related parties within a corporate group to pool the GST credits and utilise the pool for making any cash payments, he said.

GRAVITA
 AN INDIAN MULTINATIONAL COMPANY

Recycling
 For A Better Tomorrow

GLOBAL FOOTPRINT
 Network Spread Over 70+ Countries Across 6 Continents

14 ECO CONSCIOUS
 State-of-the-art Manufacturing Facilities

RECYCLING DNA
 33 Years | 17 Business Verticals

At Gravita, we understand that responsible recycling not only creates sustainable value for the green economy but also for all our stakeholders. We have maintained a growth trajectory and are confident to keep progressing on our vision:

"To be the most valuable company in the recycling space globally."
